UTILITY SAW CHAIN

NEVER CUT PIPE THE SAME WAY AGAIN

PowerGrit® Utility Saw Chain is a revolutionary cutting product designed to change the way the job gets done. From ductile iron to plastic pipe, PowerGrit will get you in and out of the job faster, easier and safer than other methods. Utilizing a brazed layer diamond coating on a patent pending chain design, coupled with an extremely durable chain platform, PowerGrit technology provides dramatically improved access to the cut with far less excavation. The ability to cut all the way through the pipe from one side dramatically reduces the difficulty of cutting pipe in the trench. PowerGrit provides reduced excavation time, reduced operator effort and less total time to complete the job.
