and Rider Machines Specialty!
Bonds Especially for Skid Steer
and Rider Saw Applications.***

**Large Diameter
14" and up to 24" OD**

***High Horsepower Heads Made for
Long Line Productivity***

CHOOSE FLATS, ROUNDS OR WAVES!

NanoFlat gives a beautiful glass smooth finish for shaving and removing coatings – better in asphalt

NanoRound gives a corduroy foot print like blades. Ideal for aggressive removal and thicker coatings in concrete, asphalt.

NanoWave gives a mini corduroy footprint with .009 uniform ridges, perfect for tape installations

- They last more than 10 times as long
- They cut 3-4 times faster
- Thermo Paint and Plasti do not stick to the Cutterz or gum up like carbide/diamond blades
